

Attention Black Belts

Qualified in Axiomatic Design?

The ASQ now requires Axiomatic Design for Six Sigma Black Belt certification.

Learn how this innovative, MIT-developed design technology:

- ◆ Provides an overall DFSS design framework
- ◆ Develops the Optimal Order of Function and Design
- ◆ Facilitates Robust Designs from the Start
- ◆ Moves Design from an Art to a Science

This technology that won Industry Week's "Technology of the Year Award" is gaining widespread acceptance in the aerospace and automotive industries. It is being adopted by design and manufacturing companies in Korea, Japan, China, UK, and Italy, as well as leading companies in the US.

Axiomatic Design Solutions, the leading source of Axiomatic Design process training, coaching and technology, is running a one-day seminar in Detroit for Black Belts and quality professionals.

February 15, 2005, 8am to 4pm, lunch included.
